

OMAIS SATTI

REACT NATIVE DEVELOPER

PROFESSIONAL PROFILE

Full Stack React Native Developer with 1.6 years of experience in crafting and maintaining cross-platform mobile applications. Proficient in React Native, JavaScript, HTML5/CSS, Node.js, and MongoDB. Developed expertise in designing scalable and efficient solutions, with a focus on building robust backend systems and seamless mobile interfaces.

WORK EXPERIENCE

React Native Developer

Multisyn Tech (June 2023 - Current)

working in multisyn tech as a react native developer I have worked on Google AdMob, Google Translation API with audio and text translation in all supported languages, with Azure object detection API and Eaden AI APIs for object scan.

React Native Developer

Zysoftec (June 2023 - June2024)

I have completed multiple mobile applications for iOS and Android, enhancing their response times and improving user interfaces. Integrated REST API endpoints into existing web applications, facilitating seamless data transfer across multiple platforms and reducing development time. Proficient in push notifications, AsyncStorage, Redux, Context API, Google Maps, and Firebase Cloud Messaging. Successfully integrated payment gateways such as Stripe, PayPal, and Instamojo. Experienced in addressing APK-related issues for both Android and iOS platforms.

React Native Trainer

Pie/Aridian Technology(Jan2023 - Jun 2023)

Developed intuitive user interfaces with native elements, including navigation drawers, search bars, and custom components. Previously served as a React Native trainer at Pie Technology and Aridian Technology, where I mentored aspiring developers and shared valuable expertise. Currently making impactful contributions to a range of projects onsite at MultiSyn Tech.
